State Universities— New Cellular Package Rate Plans Available

By now you should have received information from Verizon Wireless regarding the new Aggregated Business Share Plans now available to State of Illinois Universities. These new rate plans were created exclusively for the State of Illinois and State Universities and are part of a statewide governmental initiative to reduce costs.

It is very important that you meet with the Verizon Wireless State of Illinois team to review your account and take advantage of these savings. Depending on an individual's usage, the savings can be substantial.

The Department of Central Management Services, Bureau of Communications and Computer Services is rapidly moving state agency users that average more than 243 minutes to these new packages. We expect to have all lines moved before the end of January. We encourage you to move your lines as well.

If you have any questions regarding the new rates please contact Jeff Skeels, CMS Cellular, at (217) 782-9495 or Marty Dahlquist, Verizon Wireless at (217) 725-2454.
